

Increase our sales and develop our profitability by capitalizing on innovation.

Strengthen our quality system to guarantee our customers a high level of product and service quality.

Improving our operational performance to be more competitive, flexible, efficient and profitable.

Ensuring the responsible development of our group.

APLIX Strategy and Road map - 2024

To support our policy, we are committed to :

- Implement this strategy, and define the underlying objectives
- Comply with current legal and regulatory obligations, the standards and benchmarks we apply, and the charters we have shared,
- Propose and develop a safe product and services adapted to each customer,
- Implement the human, financial, organizational and technical resources required to achieve our objectives,
- Put Human Health and Safety at the heart of our organization,
- Make our actions part of a continuous improvement process,
- Protect the environment and promote sustainable development.

In order to achieve this, we are counting on all our staff to become actively involved in the deployment of this policy.
