**scopely the company behind monopoly go wants to create an active community that s fun interactive and enjoyable in the long term because of this they ve made it possible to play without needing to spend any actual money**

by leveling up your buildings and upgrading your town you will improve your net worth every time you do you ll be rewarded with multiple free dice rolls for each net worth level that you achieve focus on spending the majority of your cash this way if you d like to prioritize getting free rolls

since weekly prizes can only be achieved every 7 days the prizes are typically significant in fact it isn t uncommon to win 50 70 or even 100 free rolls each week that you complete quick wins 7 days in a row

keep in mind however that you may end up losing more rolls this way so it s a bit of a gamble for example you may multiple by 3 or 5 but end up losing as a result it may not seem worth it but in our opinion it is it s always worth spending a bit more rolls to see if you end up winning more rolls than ever
